

Portable Magnetic Drill- MAB1300

Drill large holes – up to 5-1/8" diameter

Tapping up to 1-5/8" diameter

Powerful & Reliable

- 20 Amp double-insulated motor
- 34-1/2" high, 112 lbs.
- 4-speed oilbath gearbox for applications requiring high power
- Designed for continuous use
- Infinitely variable torque control and full-wave control electronics
- ***Drill up to 5-1/8" dia. & tap up to 1-5/8" dia.***
- Uses annular cutters
7/16" to 5-1/8" diameter, 1" and 2" depth
13/16" to 4-3/4" dia. for 4-1/4" depth*
- Twist drilling up to 1-3/4" – uses MT4, countersinking up to 3" diameter
- Tapping up to 1-5/8"
- Reaming up to 2"
- Automatic internal lubrication
