

مكينة رش مواد الاسمنت واللياسة - ديزل

## Mortar Mixer & Spraying Machine - Diesel Motor

Specifications	Model No.
	Diesel Engine
Type نوع المكينة	Piston typer spraying
Power الطاقة	8.8kw/12horse
Horizontal deliver توصيل افقي	50-60M
Vertical delive توصيل عمودي	20-30M
Application التطبيق	spray cement and mortar
Air compressor Capacity قدرة ضغط الهواء	0.36 0.36m <sup>3</sup> /hour
Flow rate of spraying معدل التدفق من الرش	5m <sup>3</sup> /hour
filling height حجم المواد	80 L
Mortar hose free طول هوز الرش	20M
total weight الوزن الاجمالي القائم	450kg
Dimension الابعاد	1650x750x1100 mm
Origin المنشأ	China

### Application Scope

The cement spraying machine is mainly used in the building construction industry, both inside and outside wall for plastering and spraying mortar, external wall insulation mortar spraying, the materials can be
