

مكينة ضغط ورش مواد - لياسة وطرطشة

Mortar Pressure Machine Wet Only - Plaster & Spraying

Specifications	Model
	ME-GMP
Power	380V 50Hz or 380V 60Hz and 220V 50Hz
Main Driving Motor المكينة	Y2-114M-4 4Kw
Working Pressure الضغط	30bar
Output مخرج	35L/min
Max mat. diameter حجم المواد	6mm
Hopper Volume سعة الخزان	140L
Horizontal transport distance قوة الضخ الافقي	80m
Vertical delivery distance قوة الضخ الرأسي	30m
Dimension(L*W*H) الابعاد	1940×895×960mm
Weight الوزن	385kg
Origin المنشأ	China

مدة التوريد - within 2 - 4 Weeks

الاستخدامات

This pump has compact structure, reliable operation, low failure rate, convenient cleaning, easy maintenance and high pumping pressure etc. advantages, so it has widely been using for mortar spraying, pumping and grouting in tunnel excavation and maintenance, mine engineering, constructing dams, bridges and foundation treatment etc. projects. The pump also has been using for mortar and putty pumping and spraying civil buildings

هيكل مدمج لضخ مواد اللياسة والمواد الرطبة والمعجون والجبس وغيرها بسهولة بقوة فائقة
